### EVERPLEX EP220 COLOUR DUAL PAGE QUAD

This real time, full colour quad processor has eight inputs allowing the display of two separate screens of four cameras each.

The digital refresh rate of 50 frames per second means pictures are smooth and crisp without the "robotic" motion effect seen on inferior models.

In addition to dual quad display, the EP220 can display sequenced views of full screen pictures.

All programmable functions are set up using an on screen display and logical menus.

A unique feature of this model is the use of different border colours to indicate
